

International Fingerprinting Services - RCMP Certifications from Abroad

To whom it may concern,

Canadians and foreign nationals requiring RCMP fingerprint certifications while living abroad must submit a set of ink fingerprints to the National Pardon Centre for digitization and certification.

Please note you do not need to use the RCMP C216 C fingerprinting form included as long as your local police station or fingerprinting provider uses a standardized fingerprinting form. It must include ten rolled impressions on top followed by pressed impressions below.

If you have any questions, please contact a fingerprinting specialist at the National Pardon Centre. You can also visit our website for more information.

Sincerely,

National Pardon Centre

Correct Fingerprinting Example

Below is an example of how your fingerprints should be formatted in order for our scanning technology to accept them.

1. The prints must have ten rolled impression on top.
2. The prints must have all impressions pressed flat underneath.

Common problems with submitted fingerprints

1. Non-standard fingerprinting forms.
2. Smudged impressions.
3. Impressions that are too light or too dark.

Please note that fingerprinting quality is the responsibility of the applicant. Therefore we strongly suggest you find a qualified fingerprinting technician to take your fingerprints. Typically a local police station will be able to assist.
